

Suggested Tweets and Posts for HIP Partners focused on the new Enabling Environment Overview brief

Quick Content! All Suggested Tweets Ready to be Posted

Monthly, we send you an updated social media guide on the High Impact Practices in Family Planning (HIPs) with the purpose of (1) increasing awareness and use of the HIP briefs, and (2) generating traffic on the HIP website. Beginning in October 2021, we started including posts for sharing on LinkedIn. Please share!

The focus for this month is on the newest HIP product: the [Enabling Environment Overview](#) brief. The purpose of this overview brief is to explain the enabling environment for voluntary, rights-based family planning and how the different components of the enabling environment work together to support equitable access to and use of family planning information and services. The brief provides a framework for how the enabling environment HIP briefs are related among themselves and play a supporting role with the service delivery and social and behavior change (SBC) HIP briefs to strengthen family planning programs.
